Subject: RAC Supplier Approval Effective, February 22, 2002 to February 22, 2005

Dear Alex Famira :

After extensive evaluation Raytheon Supplier Quality Group is pleased to inform you that **CASP Aerospace Inc.**, located in **Pointe Claire, QC, Canada**, has satisfied the Raytheon Aircraft supplier quality requirements for continued supplier approval.

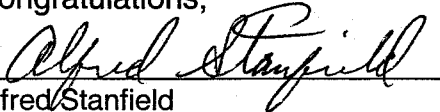

CASP Aerospace Inc., is approved to provide to Raytheon Aircraft and its sub-tier suppliers the following category of parts or materials: **Fire Protection & Oxygen Equipment**.

In order to maintain approval, the quality level in existence at the time of this approval must be sustained or improved upon. Raytheon Aircraft standard re-evaluation will occur on a scheduled three(3) year periodic basis. The following may void current approval and requires that your company notify Raytheon Aircraft of the change in status.

- ◆ Lack of production of RAC part (s) for period of 12 months or longer
- ◆ Lack of response to RAC Quality Surveys or Corrective Action Requests
- ◆ Change in process/ production system
- ◆ Change in process/ production location
- ◆ Change in management/ownership

If there are any questions regarding this approval please contact the Raytheon Aircraft Vendor Approval Administrator, Mianna Forrester 316.676.2300, FAX 316.676.8681 or e-mail. (mianna_forrester@rac.ray.com)

Congratulations,

Alfred Stanfield
Raytheon Aircraft Supplier Quality
