

AerTrim™ LHR is a medium-weight, integrally colored fiberglass product ideally suited for areas where weight is still important but increased abuse is expected. Applied to flat or single-contoured parts, AerTrim LHR can easily be wrapped around a radius of 1/8 inch (3.2mm).

**Data Sheet**  
January 2004

## Product Features

- Integrally colored base provides excellent damage resistance and panel protection; helps minimize the aesthetic appearance of scratches and damaged areas.
- Thermoplastic resin system is more flexible than other fiberglass-supported products, making it much easier to cut and handle, and allows for easy edge wrapping.
- Can be wrapped around a radius of 1/8 inch (3.2mm).
- Easily complies with the latest 65/65/200 heat release rate and smoke density requirements.
- Stain/solvent-resistant top facing makes AerTrim cleanable and maintainable.
- Unlimited custom color and design availability is ensured and backed up by Schneller's well-equipped and experienced Design and Color Matching staffs.

## Product Specifications

- Qualified to Boeing DMS 2389.
- Typical roll size is 60-80 yards (55-73 meters).
- Supplied in continuous rolls 60 inches (1.5 meters) wide or pressed sheets up to 60" x 130".

## Adhesive Information

- Available with Schneller's pressure-sensitive adhesive, PSLHR, or with no adhesive.
- Can also be applied using commercially available contact adhesives.

## Possible Applications

- Partitions
- Bulkheads
- Meal cart sides and doors
- Inside/outside lavatory walls
