

Abskyn™ is a decorative thermoplastic sheet engineered to meet the vertical burn requirements of FAR 25.853. Abskyn is highly abrasion-resistant and can be readily thermoformed into parts for aircraft interiors using conventional thermoforming equipment.

Data Sheet

January 2004

Product Features

- Unlimited custom color and design availability is ensured and backed up by Schneller's well-equipped and experienced Design and Color Matching staffs.
- Cleanable surface.
- Easily thermoformed using common thermoforming equipment.
- Preferred thermoforming equipment provides for individually controlled uniform top and bottom heaters.
- Tooling normally used for ABS is serviceable for Abskyn.

Product Specifications

- Available in sheets up to 48 inches x 120 inches (122cm x 304cm).
- Available in gauges between 0.035 inches and 0.125 inches.

Possible Applications

- Door jam liners
- Service doors
- Sidewalls
- Window reveals
- Dado panels
- Mullion strips
- Food trays
