

AerLam™ LW

General Information

October 2010 • Page 1 of 1

AerLam™ LW is a highly formable product in Schneller's product portfolio engineered to be applied using heat-vacuum application equipment. This medium-weight decorative laminate has excellent texture retention for deep draw areas where a substrate panel is used.

Product Features

- Will form into deep draws.
- Will vacuum-form into complex shapes with a minimum of vacuum pressure and temperature.
- Can be attached to substrate with heat-active adhesive.
- Unlimited custom color and design availability is ensured and backed up by Schneller's well-equipped and experienced Design and Color Matching staffs.
- Stain/solvent-resistant facing makes decorative more cleanable and maintainable.

Product Specifications

- Will meet FST criteria on most panels.
- Qualified to Boeing DMS 2415.
- Normal weight is 15 oz. /yd² (508 g/m²) ±10%.
- Available in sheets up to 54 inches x 120 inches (137cm x 305cm).

Adhesive Information

- Available with heat-activated adhesive (for vacuum forming).
- Can also be applied using commercially available contact adhesives.

Possible Applications

- Door jam liners
- Deep draw applications
- Seat Components
