Schneller is the premier single source provider of coordinated collections and custom decor of **film** and **reinforced laminates**, **thermoplastic sheets** and **non-textile floor coverings** designed to meet the exacting requirements of our customers in the aviation and ground transportation industries. We provide continuous roll and sheet production from our ISO9001:2008 and AS9100C certified production facility. From our innovative materials to complete solutions, from advanced engineering to inspiring motifs, from localized knowledge to worldwide service, everything we do is designed to deliver superior aesthetics, performance and results. For further information on Schneller's products and services, please visit our website at www.schneller.com.

PanFlor® Non-Textile Flooring

PanFlor® is an engineered decorative flooring designed to provide **superb aesthetic imagery** as well as **outstanding durability**. This rigid non-textile flooring product can be customized with simulated marble, wood grain prints or a wide range of color and print designs. Panflor has always been at the forefront in aircraft floor covering with unmatched aesthetic capabilities. PanFlor has a highly durable cap and is the material of choice for design innovation combined with low life cycle costs.

Product Specifications

- Typical Size - pressed sheet - 48 x 96 inches (1.22 x 2.44 meters) - up to 60 x 130 inches (1.52 x 3.39 meters)
- Normal weight: 76 oz/yd² (2575 g/m²).
- Available in cut-to-size format to optimize yield and reduce handling/transportation costs.
- Airbus approved All-in-One construction for lavatories.
- Complies with 14CFR 25.853(a) Vertical Burn and 14CFR 25.793 friction.
- Meets the requirements of Boeing BMS 8-286E

Product Features

- Engineered with or without imbedded grit for improved slip resistance and durability.
- Easy to install, clean and maintain.
- Unlimited custom color and design availability.
- Flatter surface, easy to clean and sanitize, ideal for odor-free lavatories.
- Highly durable, dimensionally stable and telegraph resistant.
- Now available: our new technological advance print process provides the highest resolution in the industry with the lowest minimum quantity requirements.

Installation

PanFlor is easy to install with Schneller's color matched hot welding rod and color matched AerSeal silicone cartridges for safe and watertight installation.

Possible Applications

All traditional Non-Textile Floor coverings areas on commercial aircraft:

- Lavatory Floors
- Entryways
- Galleys
