

AerFusion[®] fit

General Information

June 2017 • Page 1 of 1

AerFusion[®] fit is a state-of-the-art removable and repositionable flooring solution combining the well-known benefits of Schneller NTF with the ease of installation of a “ready to use” product and the following unique benefits;

- ❖ *Repositionable adhesive system provides the versatility required to meet precision installation requirements*
 - ❖ *Adhesive system optimized for clean removal from floor substrate provides unparalleled efficiency during aircraft maintenance*
- Minimizes telegraphing (“read-through”) effect
 - Better buckling resistance and dimensional stability than similar competitive products
 - Unlimited color and design options
 - Easy to clean and maintain
 - Can be cut to size and/or pre-seamed to order
 - Cost effective
 - Easily removable liner to facilitate installation

Product Specifications

- *Complies with CFR/CS 25.853 (A), 12s Vertical Burn*
- Dimensionally stable per EN 434
- Roll sizes up to 58” wide (1500cm)
- Nominal weight: < 3000 g/m² (80 oz./yd²)
- Can be cut to size (width and length)
- Typical roll length: 25 yards (7.7 meters)

Possible Applications

- Lavatory
- Galleys
- Entranceways
- Aisle ways
