

AerTrim™ BD100

General Information

October 2010 • Page 1 of 1

AerTrim™ BD 100 is Schneller's newest decorative laminate developed for aircraft applications to simulate the look of fabric-type materials. Typical areas of use are bulkheads, class dividers/partitions and dado panels. AerTrim™ BD 100 has been successfully flight-tested and evaluated in a joint effort with several major airlines.

**The Look of a Fabric,
the durability of a laminate**

Product Features & Benefits

- Textile-like emboss textures
 - Simulate fabric appearance
- Glass fiber reinforcement
 - Long life – superior durability
- 65/65/200 Compliant
 - Improved flame and smoke performance vs. fabric
- Unlimited custom color and design availability is ensured and backed up by Schneller's well-equipped and experienced Design and Color Matching staffs

Product Specifications

- Typical roll size is 50-60 linear yards (46-55 linear meters).
- Typical weight of a roll is 140-175 pounds per roll (63-80 Kilograms per roll).
- Supplied in continuous rolls maximum width of 57 inches (1.5 meters) wide.

Possible Application

- Partitions
- Bulkheads
- Class dividers
- Dado panels
